

# MISSION HILL BEDROOM

## ARTS & CRAFTS

The simple, sturdy vertical lines of our Mission Hill bedroom speak to the motifs of the Arts & Crafts design movement, ornamented mainly by the grain of the wood, the joinery, and the hardware. Although the mortise and tenon joinery and closely spaced long wooden slats are reminiscent of the related mission furniture style and offer a classically traditional aesthetic, the simple silhouette caters to a living style and philosophy that can make any home more satisfying, comfortable, and beautiful. Features classic craftsman hardware that emulates a hand forged hammer tone texture in an oil rubbed bronze finish.
